Customer Satisfaction Questionnaire 8

1. Target

The aim of this procedure is to describe the system to be used to carry out the Customer Satisfaction Measurement for the medical devices produced by Spika Tech, hereinafter SPIKA.

2. Outreach

This procedure applies to all medical devices marketed by SPIKA.

3. Responsibilities and Departments concerned

Management and Sales should follow up on the measure of customer satisfaction.

The departments concerned are listed in the table below:

Department	Applies	
	Yes	No
Address	☒	☐
Environment	☒	☐
Quality Assurance	☒	☐
Systems and Cybersecurity	☒	☐
Research and Development	☒	☐
Marketing and Sales	☒	☐
Management	☒	☐

4. Definitions and Acronyms

- IRSGC: Quality Management System Review Report.

5. Procedure

5.1. Introduction

On an annual basis, questionnaires will be sent out by the Sales Department in order to measure the satisfaction of the customers to whom SPIKA supplies products.

A selection of the customers with the highest turnover will be made and the questionnaire included in Annex 1 will be sent to them and returned to the Responsible Technician. The selection of customers and follow-up of the questionnaires will be carried out by the Sales area.

In this annual evaluation SPIKA will assess the post-production activities by reviewing the following records:

- List of customer complaints, to be documented in the IRSGCD
- Customer satisfaction questionnaires

5.2. Sending questionnaires to customers.

With the list of customers with the highest turnover, the Sales staff will send the "Customer Satisfaction Questionnaire" (see Annex 1) by post or e-mail to the customers indicated in the list, in order to be able to evaluate the quality of the product and service.

The "Customer Satisfaction Questionnaire" includes 3 sections for the assessment of:

- Product Satisfaction.
- Service Satisfaction.
- Overall satisfaction.

5.3. Assessment of the questionnaire

Once the duly completed questionnaire has been received, it will be sent to the Responsible Technician. The questionnaires must be signed and dated, or, failing this, the communication of the sending of the questionnaire to SPIKA must be included.

With these questionnaires and the annual complaint lists, all information will be reviewed and conclusions will be collected in the IRSGC.

5.4. Communication to management

The result of the customer satisfaction measurement shall be reported to the management in accordance with SOP-010 Management review of the effectiveness of the quality management system.

6. Distribution of the Procedure

Staff belonging to the departments listed in Section 3 (Responsibilities and Departments concerned) should be provided with a copy of this procedure. In addition, controlled copy no. 1 will be given to the Archives for archiving on paper.

Controlled copies to be issued:

No. Controlled copy	Departments
1	Archive

7. Annexes

NUMBER / REV.	EXTERNAL (YES / NO)	TITLE
1/01	NO	Customer Satisfaction Questionnaire

8. Related documentation

Code	TITLE
MQ-01	Quality Manual
PNT-010	Management review of quality management system effectiveness

9. Training

This version requires the following training for the departments concerned as indicated in paragraph 3:

Mark with an X	Type of training
☒	Theoretical (reading and understanding of the procedure)
☐	Theoretical - Practical (If this option is selected, please contact the Technician in charge).

Annex 1_VERSION_03

Customer Satisfaction Questionnaire

In order to improve the Quality of our Service regarding the Medical Devices marketed by SPIKA, we would like to know what you think of our products.

Please mark with an "x" the box that corresponds to the product(s) on which your ratings are based (use one questionnaire per product to be evaluated):

VR CARDIO	☐	OTHERS:	☐

To evaluate, please put an "x" in the box corresponding to your assessment:

Score:
1 = Very Dissatisfied | 2 = Dissatisfied | 3 = Neutral | 4 = Satisfied | 5 = Very Satisfied | NS/NC = Don't know/No answer

1. PRODUCT QUALITY		Score					
		1	2	3	4	5	NS/NC
1.1	Ease of installation and initial configuration						
1.2	Ease of use (intuitive and accessible)						
1.3	Graphical interface and visual design						
1.4	Reliability (absence of critical errors or failures)						
1.5	Operating system compatibility						
1.6	Customisation to suit different needs						
1.7	Frequency and usefulness of updates						

2. SATISFACTION WITH TECHNICAL SUPPORT AND AFTER-SALES SERVICE		Score					
		1	2	3	4	5	NS/NC
2.1	Rapid technical support response						
2.2	Availability of technical support (opening hours, communication channels)						
2.3	Clarity and effectiveness of the solutions offered						
2.4	Treatment received from technical support staff						
2.5	Meeting deadlines for resolving incidents						
2.6	Quality of technical documentation and user manuals						
2.7	Frequency and quality of communications on updates and upgrades						

3. IMPACT OF SOFTWARE ON YOUR PROCESSES		Score					
		1	2	3	4	5	NS/NC
3.1	The product has improved the efficiency of its processes						
3.2	The product has reduced working/waiting times.						
3.3	The product has improved the accuracy and reliability of clinical data.						
3.4	The product helps to ensure patient safety						
3.5	Impact of software on the end-user/patient experience						

4. GENERAL SATISFACTION AND OVERALL PERCEPTION		YES	NO	NS/NC
4.1	Does the software meet the initial expectations you had when you purchased it?			

4.2	Would you recommend the software to other healthcare professionals or institutions?			
4.3	Is the software competitive with other solutions on the market?			
4.4	Do you consider the software to be good value for money?			
4.5	Are you satisfied with the overall service provided by SPIKA TECH?			

5. SECURITY AND COMPLIANCE		Score					
		1	2	3	4	5	NS/NC
5.1	Confidence in data protection and software security						
5.2	The system allows clear traceability of data.						
5.3	Proper management and resolution of errors or critical incidents						

6. CONTINUOUS IMPROVEMENTS AND SUGGESTIONS	
6.1	What additional features would you like to see in the software?
6.2	How can we improve our technical support or after-sales service?
6.3	Are there any specific aspects that do not meet your expectations?
