Overview

About us

Easy PRRC is a consultancy and representation company specializing in the role of Person Responsible for Regulatory Compliance. Although it was founded in 2024, our team has over 20 years of experience in the regulatory field of medical devices and in vitro diagnostics.

Our mission is to simplify the regulatory process for healthcare startups and SMEs by providing specialized support in the role of Person Responsible for Regulatory Compliance, as required by the European Medical Devices Regulation 2017/745 and the European In Vitro Diagnostic Medical Devices Regulation 2017/746. With a passion for meeting the needs of medical device regulatory representation, we are dedicated to helping our clients achieve their strategic objectives.

Mission

Offering personalized services and representation of the Person Responsible for Regulatory Compliance.

Vision

Our vision at Easy PRRC is to become a recognized and trusted leader in consultancy services and the provision of Person Responsible for Regulatory Compliance representation in the medical devices and in vitro diagnostics sector. We aim to become the first choice for startups and SMEs looking for excellence in regulatory compliance.

Service Description

Person Responsible for Regulatory Compliance

The purpose of this service proposal is to support the company Spika Tech in the representation of a Person Responsible for Regulatory Compliance for a period of 12 (twelve) months, for a software as a medical device.

Conditions of Service

Person Responsible for Regulatory Compliance

Within the scope of this contract, Easy PRRC is responsible for being the Person Responsible for Regulatory Compliance in Medical Devices, in accordance with the European Medical Devices Regulation 2017/745, which includes:

1. Ensure that the conformity of devices is properly controlled in accordance with the quality management system governing the manufacture of devices before a device is put into circulation (Article 15, Regulation EU 2017/745);
2. Ensure that the technical documentation and the EU declaration of conformity are drawn up and kept up to date (Article 15, Regulation EU 2017/745);
3. Ensure that the post-market monitoring obligations laid down in Article 10 of Regulation EU 2017/745 are met "Device manufacturers shall implement and keep up to date the post-market monitoring system" (Article 15, Regulation EU 2017/745);
4. Ensure that the notification obligations are fulfilled, in particular:
- Reporting serious incidents and corrective safety actions;
- Trend reports;
- Analyzing serious incidents and corrective safety actions;
- Analysing surveillance data;
- Acts of execution.
5. Ensure that the declaration referred to in Annex XIV is issued in the case of devices for performance studies intended for use in the context of clinical performance intervention studies or other performance studies involving risks for participants (Article 15, Regulation EU 2017/745).

In this context, the Spika Tech company is responsible for:

1. Provide the necessary resources to carry out the work under this Contract;
2. Provide all available information regarding the provisions of the management systems implemented, standards applied, or others that are known to them and applied to the projects in question;
3. Paying all the fees due to the competent authority in connection with the product or activity registration process.

This proposal <u>does not include</u> **specialized consultancy hours** or a critical review of technical documentation or other associated documents. It only covers the responsibility inherent to the role (as described above) and attendance at audits, when duly requested and in accordance with the plan presented.

General Conditions

Should we be awarded this service, and considering the complexity and risks associated with it, we propose to invoice according to the following payment plan:

PAYMENT PLAN	INVOICE DESCRIPTION	VALUE
Start/Adjudication	Start of the service of PRRC	3.600,00€
50% of Service Completion	End of the service of PRRC	3.600,00€

TOTAL: 7.200,00€

*The price mentioned in this proposal does not include travel expenses.

Note: The price indicated does not include fees or costs inherent to the product or activity registration process.

The work will only begin on the date on which the value of the Start/Adjudication component is settled, in accordance with the payment plan, and after the formal award has been made by sending the detachable (at the end) by e-mail (easyprrc@gmail.com) and/or by post to the address below:
