Quotation

To: **SPIKA TECH, S.L**
c/ Alcalá de Guadaira, nº 6, 6ºA Derecha, MADRID

Att: Dr Fernando Pozo

Offer Reference: T_16024_24_03_01 **Date:** 13/03/2024

Certification according to MDR

Dear Dr Fernando Pozo,

Following your request, we are pleased to hereby submit our offer for the conformity assessment and certification of your organization and inform you on the details of the assessment process.

We hope you will find our proposal in line with your needs and accept it, following the steps presented below. However, if you believe that it does not fully meet your requirements, please let us know so we can make the necessary adjustments.

If you need any clarifications, you can contact me at pappous@htcert.com.

We look forward to hearing from you soon.

Sincerely,

George Pappous
Project Manager

HTCert
Health Technology Certification

Quotation

A. Scope Details

- Conformity assessment under (EU) 2017/745 Medical Device Regulation, Annex IX. Device included: VR-CARDIO

B. Financial Terms

	Service	Estimated cost[1]
Application submission	Application Review	4.000 €
Initial Certification	· TD assessment · QMS Audit · Initial certification fees	38.650 €
Surveillance year 1	· TD assessment · QMS Audit · Annual fees	14.650 €
Surveillance year 2	· TD assessment · QMS Audit · Annual fees	14.650 €
Surveillance year 3	· TD assessment · QMS Audit · Annual fees	16.650 €
Surveillance year 4	· TD assessment · QMS Audit · Annual fees	14.650 €
Surveillance year 5	· TD assessment	0 €
	A renewal process has to be completed before the expiration of the certification. *Renewal process and associated costs are not stated in this quotation.*	

C. Process steps and cost estimates analysis

Application Review

Cost for Application Review **4.000 €**

The first step of the conformity assessment procedure according to MDR is the Application Review. This includes the following activities:

- Verification of the qualification and classification of the devices included in the scope
- Verification of the applicability of the conformity assessment procedures chosen

[1] Not including any additional costs that may arise as described below.

- Verification of the completeness of the application supporting documents
- Review of the QMs documentation submitted to verify its suitability
- Review of the technical documentation submitted to verify that it is in line with HTCert Technical Documentation Submission Guidance
- Verification that HTCert has sufficient and suitable resources.

Initial Assessment

1. Estimated Cost for Initial Assessment

- QMS Audit. This includes onsite and offsite days for **2.000 €/day**
  - Audit preparation and planning
  - Stage 1 audit
  - Stage 2 audit
  - Audit of supplier(s)/subcontractors (AITEX)
  - Compilation of the audit reports

  Estimated duration: **6** days
- Technical documentation assessment. This includes the days required for **2.000 €/day**
  - the assessment of all applicable requirements as per MDR Annexes II & III for all devices included in the certification scope.
  - Compilation of the assessment reports

  Estimated duration: **7** days

2. Additional Charges

- Additional assessment, either on-site visits or desk reviews required to verify corrective actions. **250 €/hour**

  Applicable for QMS audits and TD assessments.

  Cost will be determined based on the actual time spent.
- Additional audits at crucial suppliers and critical subcontractors' premises required to confirm the control of processes and the conformity of the devices. **2.000 €/day**

  Applicable if it is found that the manufacturer cannot demonstrate sufficient control over its suppliers/ subcontractors.

3. Fees for initial certification **12.650 €**

This includes:
- Administrative project management fees
- Project coordination
- Final review and decision on granting certification
- Issuance of certificates: A PDF file in English language and a hard copy in A4 format, for each certificate.
- Registration in the EUDAMED database

Estimated Cost for Maintaining Certification

HTCert
Health Technology Certification

Quotation

1. Estimated Cost for Assessments during Surveillance

2.000 €/day

- QMS Audits. This includes onsite and offsite days for
  - Audit preparation and planning
  - Onsite auditing
  - Compilation of the audit reports

  Estimated duration:
  - Surveillance audit **3** days per year
  - Recertification audit **4** days every 3 years

2. Additional Charges

- Additional assessment, either on-site visits or desk reviews required to verify corrective actions. **250 €/hour**

  Applicable for QMS audits, regular and unannounced, and for assessments of TDs, PSURs, SSCPs, PMCF reports and associated documentation.

  Cost will be determined based on the actual time spent.

- Review of Periodic Safety Update Reports (PSURs), Validation and uploading of Summary of Safety and Clinical Performance (SSCPs), Post Market Clinical Follow-up reports (PMCF reports) and associated documentation. **2.000 €/day**

  The above activities, if and when conducted, will be charged at the specified rate.

- Unannounced Audits **7.000 €/audit**

  The cost includes onsite and offsite days for
  - Audit preparation and planning
  - Onsite audit. *Unannounced audits last at least one day and are usually performed by two auditors.*
  - Compilation of the audit report

  Unannounced Audits are conducted at least once during the certification validity period.

3. Fees for surveillance

8.650 €/year

This includes:
- Annual certificate maintenance fee
- Administrative project management fees
- Audit schedule maintenance
- Final review and decision on maintaining certification
- Regulatory discussions and general support of the client
- Processing of enquiries from the authorities
- Updates of registrations in the EUDAMED database

- Extensions and/or significant changes to the scope of certification, or other special visits, unless expressly stated are not included in the fees presented.
- Assessment of changes is charged on an hourly rate of 250 €/hour.

Payment Terms

- Invoices will be issued for each stage of the process. The client shall pay each valid invoice within thirty (30) days of the date of the invoice.
- Application Review Cost is charged in advance and is non-refundable even if the application is rejected.

Important Notes

- This offer is based upon the data provided in the certification request and will be subject to review and confirmation after completion of stage 1 audit.
- If this information is inaccurate or has changed, a recalculation of costs and prices may be required.
- Please note that the actual time to carry out the assessment activities may be higher than the estimated and will be invoiced accordingly.
- HTCert reserves the right to increase its fees annually by up to 10%.
- In case of changes to the applicable regulatory requirements during the certification validity period, HTCert may modify the offer and proceed to relevant adjustments.
- Anything not clearly indicated in this Quotation shall be subject to the provisions of the standing Price List as regards the corresponding charges.
- Prices quoted do not include VAT, GST or any other tax.

Quotation

General Terms

The process for the certification, the terms and conditions that apply and the price list are available in our website https://htcert.com/.

It is specifically stated that the standing version of the General Terms and Conditions for the Certification of Medical Devices under MDR shall always supersede the contractual provisions and shall inevitably affect the contractual terms.

Offer Validity

This quotation is based upon the data you provided via the HTCertSystem on 29/02/2024 and remains valid for one month. We reserve the right to amend our quotation or even cancel the agreement if the information is found inaccurate or incomplete.

No modifications to this quotation shall be legally binding unless and until accepted in writing by both parties.

Offer Acceptance / Application

If our offer is accepted, please return this quotation duly signed within the validity period stated above.

On receipt of the signed offer, HTCert will send you the formal application form and the list of documents required.

The signed application must be submitted within one month of receipt and the supporting documents within 6 months of submission of the application, unless otherwise stated.

Application review

The conformity assessment under MDR is a multi-step process, starting with the review of the application and, upon its positive outcome, proceeding to the assessment of the devices' Technical Documentation and the manufacturer's Quality Management System.

The positive outcome of this review is a prerequisite for the acceptance of the application by HTCert and the signing of the contract. A negative outcome will lead to the rejection of the application. In this scenario, HTCert will enter into the EUDAMED database the relevant data and the process will be terminated. However, a new application may be lodged, starting a new cycle of review and assessment.

Assessment process

After acceptance of the application, the binding contract will be signed and the conformity assessment process will start.

The conformity assessment includes assessment of the technical documentation in conjunction with audit of the quality management system. A detailed description of all the process steps and their sequence, covering both the initial assessment and the monitoring activities during the validity period of the certification, is provided in the General Terms and Conditions for the Certification of Medical Devices under MDR, which you can download following the link General-Terms.

Please keep in mind that Greek and English are the only acceptable languages for communication with HTCert and submitted data must be into one of these languages.
